

Jamie Mollaghan

BSc. Multimedia Programming & Design

About

Highly motivated and creative graphic designer with experience in multimedia, print design, marketing & UI/UX design. Well-versed print & digital designer for business marketing. Accustomed to deadline-driven environments with great drive under pressure. Deeply interested in brand design & brand UX. Experienced web designer & developer – in particular with custom wordpress sites. Truly passionate about innovating and problem solving through collaboration to find the best solution to problems.

Education

Limerick Institute of Technology

2013 - 2017

Upper Second Class Honours degree in Multimedia Programming & Design (BSc. Multimedia Programming & Design)

PORTFOLIO WEBSITE

Experience

Graphic Design - Davis Printers

May 2020 - Present

- Graphic design for business marketing in varying size formats (e.g. large format signs, for web, posters, magazines, stickers).
- Dealing directly with clients in one-to-one requirement gathering meetings, handling amends and getting final sign off.
- Managing multiple jobs simultaneously (sometimes upwards of 20) and tracking deadlines and correspondence from clients.

Graphic Design, Games Development & Web Development - Fury VR

May 2019 - May 2020

11 month contract to assist with in-house virtual reality game "The Ascent". The role involved implementing the following elements:

- A server controller & front-end interface for a virtual reality experience that allows an external operator to control in-game functions.
- Website development, built with a custom wordpress theme to allow content editing as well as an online payment and booking system.
- Complete website re-design to accommodate new content.
- Logo and branding guidelines created for in-house virtual reality experience with direct links to existing brand rules for Fury VR.
- Graphic design for marketing material (gift vouchers, flyers, posters etc).
- Creating branding elements for in-game fictional corporation (logo, advertisements, posters).

Graphic Design - Realprint

May 2018 - May 2019

- Design role similar to my current role at Davis Printers.
- Operated printing equipment - ensuring colour matching from screen to print, confirmed pages tracked properly.
